QUALITY

All Ram accessories are of the highest quality, each product is thoroughly tested and is inspected before it leaves our factory. Quality is a must for satisfied customers and satisfied customers mean repeat sales.

COMPLETE LINE

Ram's all new accessories offer your customers the most frequently used line of accessories by the average "do-it-yourselfer." Most important, your customers can depend on you to provide them with the right accessories at the right time.

PACKAGING

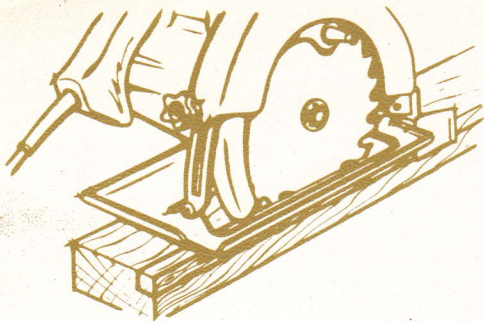

Ram has developed what we believe to be the most outstanding way of presenting power tool accessories to your customer. This has been accomplished thru attractive skin and blister packaging which enables your customers to readily see just exactly what they are looking for and also creates an impulse and desire to buy additional accessories.

NEW PRODUCTS

To meet your customers' requests, additional items will be added to the Ram accessory program. Of course, we at Ram are constantly seeking new product improvement that will become fast moving items for inclusion in our line.

DISPLAY

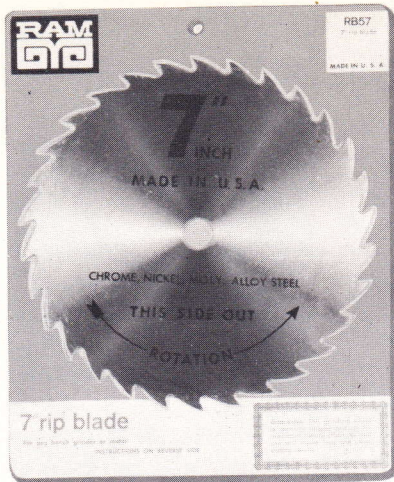

Ram will offer to you sound merchandisers to help sell the complete line of Ram accessories. These merchandisers will enable you to sell Ram accessories because they will practically hand your customers the accessories desired.
